Chapter 2

Next chapter is going to be in HQ ya.

HQ doesn't always make a huge difference, but on this series... uh, yea... it does. So, have fun with the shiny new raws. This series is quite funny, and I'd liken it to Wangpai Yushi in it's style. An action comedy! So yea, like I said in the last chapter's credits, this series will only be made more frequent by having a proofreader join.
